

UltraBoard 950 Wireless

Compact sized wireless keyboard, allowing you to work inline anywhere, anytime.

Compact, but fully loaded.

The UltraBoard 950 Wireless is a compact keyboard. Take it anywhere and work in a healthier way due to its compact size. The UltraBoard 950 Wireless Bluetooth is designed according to the ergonomic requirements for keyboards. This keyboard has a scissor mechanism, a key centre distance of 19mm, and concave keys in white with dark lettering. Those aspects of the keys promise a convenient and precisely way of typing, and minimal typing errors. In addition, it has nice features, like hot-keys, integrated multimedia keys, and status LEDs, which will support you to work more efficiently.

Ergonomic background

A compact keyboard without the numeric keypad, which allows placing the mouse closer to the keyboard. Research shows that 90% of users do not use the numeric keypad, if ever. With a compact keyboard you work more comfortably, because it lowers the reaching distance to the mouse (Cook C. et al., 1998). This lightens the load on the forearms and shoulder. Dark letters on a clear background make reading easier (ISO 9241) and contribute to higher productivity (Snyder, 1990).
