PROTIMETER

Protimeter TimberMaster (BLD5675)

Advanced Moisture Meter specifically designed for the timber industry

Protimeter TimberMaster is an advanced moisture meter specifically designed for the timber industry. It is ideal for a range of quality control applications associated with moisture levels within all wood products.

Features and Benefits

- Simple hand-held design
- Durable and rugged
- Larger Display Screen
- Blue tooth Capability
- Built in Calibration Check
- Built in wood calibration scales - 10 preferred wood species set default in the device through App from a list of 150 wood species
- Large LCD for ease of use in all conditions
- Hammer Auxiliary Plus for accessories like the Hammer Electrode (optional)

When precise wood moisture measurements are required, there is no substitute for the **Protimeter TimberMaster**

TimberMaster Specifications

Measure 150 Wood Species

The Protimeter TimberMaster features eight calibration scales, enabling the user to take accurate moisture measurements in 150 wood species from around the world.

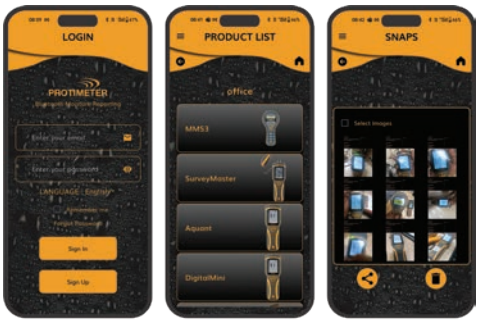

Simple Operation

Moisture measurements are commonly taken using the integral pin electrodes. User can select specific wood species from a list of 150 wood types to take accurate measurements.

Hammer Electrode

A slide-hammer electrode can be used with the Protimeter TimberMaster to measure sub-surface moisture levels (to a depth of 30mm/1 3/16") irrespective of surface moisture levels.

Download on the App Store

GET IT ON Google Play

Protimeter devices with Bluetooth are able to use the free Protimeter Connect App. The app allows users to record measurement readings and photos.

Operating Conditions:

- Operating temperature range: 0°C to 50°C
- Humidity: 0 to 90% RH, non-condensing

Measurement Specifications:

Moisture measurement:

- Pin measurement range (% MC in wood)
- 6 to 99% (readings over 30% are relative)

Physical Specifications:

Power:

- 3V (2 x AA) 2700 mAh

Size:

- 195 mm x 63 mm x 35 mm (7.7" x 2.5" x 1.4")

Gross Weight:

- 240g

Maximum Needle Depth:

- For WME pins: 0.4" (10mm)

Regulatory Compliance:

- CE, RoHS, ETL, FCC, UKCA, R-NZ

Part Number:

- BLD5675
- Supplied with Heavy Duty moisture probe

Warranty:

- 2 years on manufacturing defects.
  Does not include wearing parts or accessories

Heavy Duty Hammer Electrode BLD5055

Heavy Duty Moisture Probe - BLD5060
