Laserliner

VideoFlex G4 Duo

Includes:

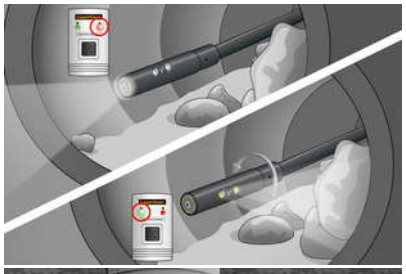

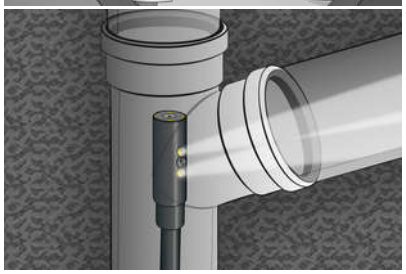

- 9mm camera + 1m probe

Professional video inspection system with 2 x viewing camera's

This professional video inspection system allows hard-to-reach places, such as in pipes, wall cavities and motor vehicles to be visually inspected. Intuitive rotation of the base unit provides the user with easy spatial orientation. The efficient LED object illumination ensures reliable image capture, even in poor conditions. The true colour reproduction provides an extremely realistic image. Front and side cameras provide a quick change of view at the touch of a button. Details can be clearly captured using the zoom function. The ergonomically designed device fits well in the hand and is also comfortable to use, even after extended periods of work. With eight languages and an exchangeable camera unit, this device can be used in many different application areas. Images and videos can be saved on an SD memory card and analysed via the USB-C interface.

- Effective problem localisation behind or in objects, walls, pipes, cavities
- SmartView: Intuitive rotation of the base unit for easy spatial orientation
- Quick change of view at the touch of a button thanks to front and side cameras

TECHNICAL SPECIFICATIONS
