GEARWRENCH

2 Piece Bolt Biter™ Dual Material Extraction Screwdriver Set

86090

Features

- Striking impact to drive spring-loaded handle to remove rounded and frozen screws
- Designed to drive 12 degree rotation with each impact
- High performance steel end cap designed for repetitive striking impacts
- Ergonomic tri-lobe dual material handle provides the optimal balance of strength and efficiency
- "Speed Zone" handle design for faster rotation in low-torque applications
- Non-slip black oxide tip for more secure fit in fastener
- Blades laser etched with part number and size for quick identification
- Oil and solvent resistant handle provides a longer tool life
- Meets or exceeds ASME standards for performance and quality

Bolt Biter Impact Screwdrivers

These new Bolt Biter impact screwdrivers offer the convenience of a standard screwdriver with the extraction abilities of a dedicated impact driver, loosening rusted, stripped, or other difficult-to-remove screws. Their high-performance steel handle end cap transfers impact shock to an internal mechanism that rotates the heat-treated alloy steel shaft 12 degrees when struck. High-strength tips are rust-resistant nickel chrome plated.

Specifications

- Insulated : No
- ASME Specification : Meets or Exceeds
- Handle Material : Dual Material
- Tip Finish : Black Nickel Chrome
- Tip Style : Phillips®/Slotted
- Overall Length : 6.5
- Size : Phillips® #2
