Product Description | **Weights & Dimensions**

Champion™ Plus Folding Barrier System - Red - 1.5 metres

The NEW Champion™ Plus Barrier is a 1.5 metre system offering exceptional value for money at an attractive price per metre ratio. The new design makes this versatile road safety product stronger than ever. The blow moulded hinge mechanism is one piece, providing extra strength without the need for additional fixings. The barrier system can also be arranged in multiple configurations to suit many applications, such as areas to surround smaller trenches or open manholes, helping to keep workers and the public from stumbling into open covers or excavations for gas, drainage, electrical or telecoms infrastructure.

Features & Benefits

- Weight 14kg
- Height 1020mm
- Width 230mm (Folded)
- Length 1620mm
- BS EN 8442 (Wind stability)
- BS EN 12899-1(Reflective only)
- Chapter 8 (Traffic Signs Manual)
- Traffic Signs and General Directions
- Safety at Street Works Act
- Body Material - Polypropylene
- Feet Material - Recycled PVC

COMPACT & CONVENIENT
Folding feature provides greater convenience when transporting, carrying, and deploying. Extremely compact when folded enabling extra metres per vehicle and encourages carbon footprint saving.

STRONGER THAN EVER
Sturdy boards give added longevity over traditional extruded board barrier style. Designed with blow moulded hinges, providing extra strength without the need for additional fixings.

COMPATIBILITY
Designed to be compatible with our existing Champion™ barrier bases. **Champion™ bases are sold separately.**

MULTIPLE CONFIGURATIONS
The barrier system can be arranged in multiple configurations to suit many applications, including a box format, linear, and angled scenarios.

BESPOKE BRANDING
Boards can be embossed on rear of top section. Boards and poles can be made in a range of colours to suit your corporate identity. MOQ apply, please contact the sales team for more details.

BOARD LABELS
Decal labels can be fitted on to front central lower boards to communicate messages, i.e. 'No Smoking'.

TRACEABILITY
Each board is date stamped for age traceability.

We are committed to reducing waste and work closely with recycling partners to ensure the lifecycle of materials. This enables us to reduce our carbon footprint.
