Reflex®

The original and the best

Reflex® from Polyco is a general handling seamless knitted polycotton glove with a crinkle latex palm coating that provides excellent grip in both wet and dry conditions.

The original glove from Polyco's renowned Reflex® range, it is as popular today as when it was first launched. The glove's quality and high performance shines through from the moment it is worn. The polycotton liner is both soft and breathable, and extends to an elasticated knit wrist that ensures a secure fit and keeps the hands free of dust and debris. The crinkle latex palm coating safeguards the wearer from mechanical hazards and is especially abrasion and tear resistant. It also provides excellent wet and dry grip and is highly elastic making it extremely flexible thereby allowing for prolonged use with minimal hand fatigue. A very comfortable glove with excellent grip, the Reflex® is a great choice for general handling duties. Available with a choice of orange or green latex palm coating.

CE EN388 3142
