TITAN™ BARRIER

The TITAN™ is the recognised and well established stacking barrier from JSP. It has all the usual advantages of standard stackable systems but in addition has many unique features. The TITAN™ is an easy to use, assemble and store barrier system and is available in 2 metre or 1.5 metre lengths. The TITAN™ has undergone extensive testing:

- Sub zero impact testing
- Accelerated UV age testing
- Height including feet, 1.2m approx
- Dual colour coded systems for contractors corporate I.D.
- Flexible toggles allow courtesy boards to be attached to barrier
- JSP can customise courtesy boards to allow for both specific contractors/client identification and essential safety instruction to be displayed
- Courtesy boards can remain in place whilst the system is folded away
- Roll up flexible signs can also be used
- Metal free non metalic
- Fully recyclable

Coloured Base, hot foil embossing on rear of panel is also available, please contact JSP for further information.

NOW WITH CLASS 2 REFLECTIVE

1. **CLIPS** Unique linking facility enabling easy connecting and new modified version gives compatibility with other styles.
2. **REFLECTIVE PANEL** Fully reflective panel meeting EN12899-1 requirements.
3. **STABILITY** H.D. foot giving excellent surface grip.
4. **CONTRACTOR BRANDING** Large area to allow contractor branding details to be applied.

   Unique linking clip in upper and lower locations
5. **TEMPORARY SIGNAGE**
   Locating holes enable courtesy or pedestrian signs to be fitted

Citadel™ Barrier - Class 2 Reflective

The Citadel is a strong and durable system designed to meet with the requirements of the French AFNOR NF P98-470 standard. This 2 metre system features gaps no larger than 30 x 23cm to prevent children from climbing through. Fitted with Class A reflective (French) or Class RI EN12899-1 reflective (UK)

CODE	DESCRIPTION	CARTON QTY
KBK073-000-600	Citadel 2 metre Barrier - Red	56
KBN079-000-600	Citadel 2 metre Barrier - Anti Trip Feet - Red	56

Barricader™ Barrier - Class 2 Reflective

The Barricader is a robust 2 Metre Barrier compliant with UK Chapter 8. It comes supplied with a Class RI EN12899-1 reflective tape for higher visibility in poor light conditions.

CODE	DESCRIPTION	CARTON QTY
KBH079-000-600	Barricader 2 metre Barrier - Red	56
KBL079-000-600	Barricader 2 metre Barrier - Anti Trip Feet - Red	56

1 FULLY RECYCLABLE
The Citadel and Barricader barrier are metal free which make them easy to recycle.

2 REDUCED GAPS
Reduced gaps in the barrier prevent the risk of children climbing through. Ideal for crowd control and temporary open access roadworks.

3 FLEXIBILITY
New foot connection system moulded in Co-Polymer Polypropylene with superior cold weather flexibility and strength.

4 COMPATIBILITY
Two foot option available compatible with existing Titan™ foot, as well as the New Anti-trip Foot design.

5 LINKING
New linking system allows connections to all other JSP barriers, including in curbs, rough terrain or uneven ground.

6 PROTECTION
Link Clip "parking" feature neatly locks the clip to the barrier body, protecting the clip from damage when not in use.

7 COURTESY BOARDS
Accepts standard 600 x 450mm courtesy boards for advertisement signage and offers 2 x mountable lamp slots for increased visibility.

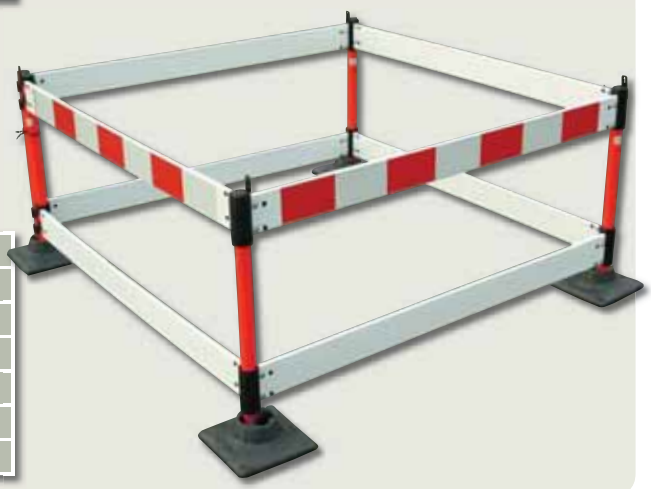

8 RAIN CHANNELS
Rain channels and water holes avoid water collection when the systems are stacked.

9 STORAGE
Outstanding Pallet quantity of 56 units for a more stackable solution, reducing freight & storage costs.

Champion Folding™ Barrier System

The New Improved Champion Barrier system offers exceptional value for money over life time use. It comes complete with galvanised nuts, bolts and washers which connect hinges, giving increased rigidity and robustness. Lamps are easily attached for additional night time visibility. It is easily squared or linear sited and folds for efficient storage. 5 standard lengths, bases to suit. Easy to site and easy to store in vehicles or depots.

NEW

ROADBLOC™

The NEW RoadBloc™ from JSP has been manufactured from Solathene HD. The system has been extensively trialled to ensure that it surpasses the demands and expectations bestowed on Traffic Separators by today's Traffic Management industry. Stacks of 20 RoadBlocs™ supplied securely banded.

KAV010-000-100	1m Roadbloc™ Barrier White	20
KAV010-000-600	1m Roadbloc™ Barrier Red	20
KAV033-000-100	1m Reflective Roadbloc™ White	20

KEA280-254-900	Roadbloc Board Support Post Red	-
KKV033-250-100	1m Reflective board with collars	-

1 POSITIONING & LINKING

The 45° Hinge Connection means RoadBloc™ is not limited to a straight-line connection; each barrier can swivel at its connection point up to 45° to enable 8 systems to form a circle or 'mini roundabout'. The hinge connector also allows each unit to be tilted at an angle whilst still connected. This means that the RoadBloc™ is ideal for use across uneven terrain.

2 STABILITY

The RoadBloc™ has been manufactured with water tight seams to allow water to be used as ballast instead of sand. Each unit also contains a large threaded, water tight plug which facilitates easy filling and drainage.

3 STACKING, STORAGE & TRANSPORT

The RoadBloc™ has been specifically designed to allow it to be moved either individually or when stacked, by a fork lift truck. Each Bloc features interlocking feet which allow the units to be stacked efficiently without the risk of them sliding apart. Stacks of 20 RoadBlocs™ supplied securely banded.

4 VISIBILITY

High quality, reflective can also be added for increased visibility. The reflective strips can be placed to sit within a recessed area on the top section of each unit. The recess allows the reflective added protection from the weather and other corrosive elements. There is also the option to add 1M high PVC barrier boards supported on 60mm diameter poles for increased visibility.

5 BRANDING

The standard RoadBloc™ is available in Red and White. However, bespoke colours to match specific corporate identities are also available. Each unit also contains 2 specific areas (one on each side) which can be embossed with a contractor's name, logo etc. These details are permanently moulded into each unit in bold, proud black print.

CODE	DESCRIPTION	PALLET QTY

Moorgate™ Manhole Barrier Systems

A tough, stable and lightweight barrier system which is available either ready-assembled for immediate use or as individual panels for constructors own configuration.
