PERISTALTIC TUBE

M025 TUBE ASSEMBLY (PACKS OF 5)

Tube assembly packs for M025 pump, supplied in two materials and three bore sizes with 1.6mm wall.

Each pack contains 5 tube sets of same size and material.

Individual tube assembly includes two 'special' nut tube connectors for coupling to external tubing.

Connectors are moulded from FDA Approved materials, and create a secure seal on pump inlet/outlet with high pressure holding capabilities.

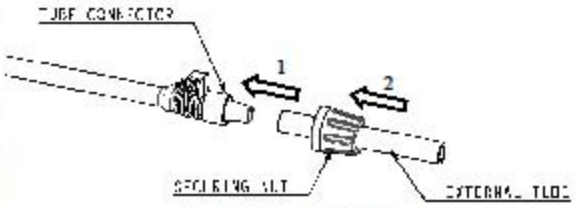

Specific tube connectors to suit external tube sizes:
4mm I/D x 6mm O/D (4x6) and 6mm I/D x 9mm O/D (6x9)

Please visit Verderflex website for chemical compatibility
