Product Description | **Weights & Dimensions**

Surefoot Bloc™ Extra stability foot covers

SureFoot Bloc™ can be put over SureFoot™ feet of a Frontier™ Cross-Link™ and Titan™ barriers to add extra weight more effectively than alternative methods such as using sandbags. They can also be used as a weighted anchor for the Frontier™ using one of it's carry handles to accept the telescopic stabilty poles and join it to the barrier.

Features & Benefits

Stability
Heavy duty recycled PVC bloc - 6.5kg

Anti-slip
Underside anti-slip studs aid grip to ground surface, these also act as stacking features

Branding
Increase ownership and security by embossing your company name and logo on the Surefoot Bloc™. You can also colour the feet to suit your companies branding.

Carry handles
Incorporates two handles which double up to accept telesopcic stability poles
