Desk Mount Dual Monitor Arm with USB & Audio - Slim Full Motion Adjustable Dual Monitor VESA Mount for up to 32" Displays - Ergonomic Articulating - C-Clamp/Grommet

Product ID: ARMSLIMDUAL2USB3

This desk mount dual monitor arm lets you mount two 17" to 32" VESA mount monitors, each weighing up to 17.6 lb. (8 kg), onto a single low-profile base. It gives you flexible desk-clamp or grommet-hole mounting, letting you save space while creating an ergonomic workspace in any office environment.

With a stable crossbar design, the dual computer screen stand lets you create more usable work-space by mounting your monitors side by side on a single base. The ergonomic monitor mount features a flat low-profile back that lets you position your displays against a wall or cubicle wall. The built-in USB 3.0 ports at the base provide a convenient way to connect your peripherals.

The multi monitor mount features one -touch height adjustment. The smooth +/- 10 tilt motion and +/- 10 swivel make it easy to find the optimal viewing angle. You can also rotate each display 360 for portrait or landscape viewing and keep your displays at the same height with the horizontal crossbar.

The VESA dual monitor mount is easy to install, with the desk-clamp or grommet mount (hardware included). Integrated cable management keeps your workspace organized. It works well with most desks, including sit-stand workstations.

StarTech.com conducts thorough compatibility and performance testing on all our products to ensure we are meeting or exceeding industry standards and providing high-quality products to IT Professionals. Our local StarTech.com Technical Advisors have broad product expertise and work directly with our StarTech.com Engineers to provide support for our customers both pre and post-sales.

ARMSLIMDUAL2USB3 is backed by a 2-year StarTech.com warranty and free lifetime technical support.

Certifications, Reports and Compatibility
