Technical Data Sheet

T-Rex Waterproof Tape

285987 – 100mm x 1.52m
285988 – 48mm x 1.52m

Properties

- Provides tough waterproof adhesion under wet and dry conditions
- Built with R-Flex Technology™ for greater durability
- T-Rex Waterproof Tape can stretch up to 700% of its original length
- Formulated to withstand extreme temperatures from -70°F to 200°F
- UV-resistant formulation won't break down under harsh sunlight

Area of Use

- Strong enough to be used for general purpose indoor or outdoor fixes that require a waterproof seal
- Why not repair a rip in an above-ground pool or temporarily stopping a leak in a water pipe
- Alternatively apply it underwater and push it into cracks and rough, dirty surfaces

Technical Data

Adhesive:	Rubber based
Carrier/Backing:	Low density polyethylene (LDPE)
Release Liner:	Paper
Thickness:	28 mils (carrier, adhesive)
Adhesion:	320 oz / inch (to stainless steel test panel)
Tensile Strength:	15 lbs / inch (longitudinal)
Elongation:	700%
Core:	3" diameter
Performance Temperature:	-70°F to 200°F

Physical and technical data displayed in this document are based on international accepted test methods but are no guarantee for product characteristics or product performance. Individual rolls may vary slightly from these averages.
The user should determine whether a product is fit for a particular purpose and is suitable for the user's method of application before use.
