Datasheet

Cable clamp for standard connector

SCS

Part number : SCS

Product Description : cable clamp for standard connector

Product Detail : Stainless steel cable clamp for standard thermocouple connector PROSENSOR, for secure fastening between cable and connector

SPÉCIFICATIONS

Attribut	Value
Accessory Type :	Thermocouple cable clamp
Using with :	Standard connector thermocouple
Application :	Secure fastening between cable and connector
Connector size :	Standard

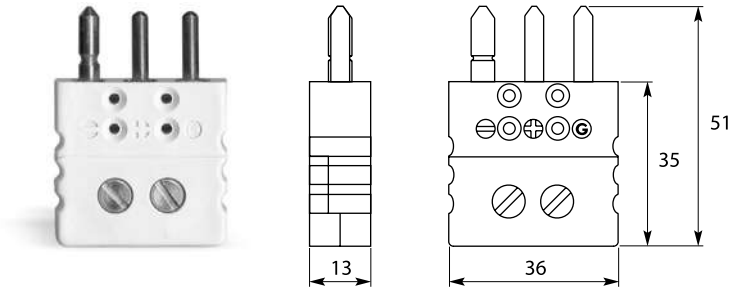

RTD connectors

Pt100

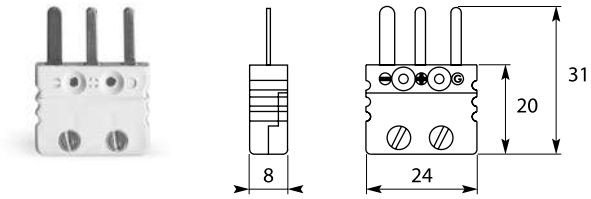

Material : fiberglass high temperature thermoplastic , 200°C, Easy wire connection, Polarized sign evoid connection mistake, 3 copper contacts .
Standard version accepts wires from 0,2 to 2,0 mm.
Maximum cable diameter 8 mm.

Miniature version accepts wires up to 0,6 mm
Maximum cable diameter 4,5 mm

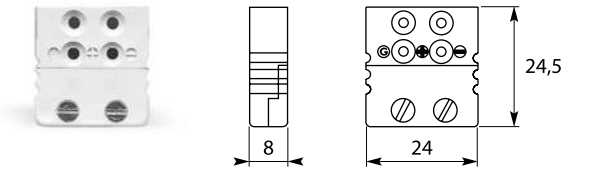

Male Standard Connector **Ref. SMPT100**

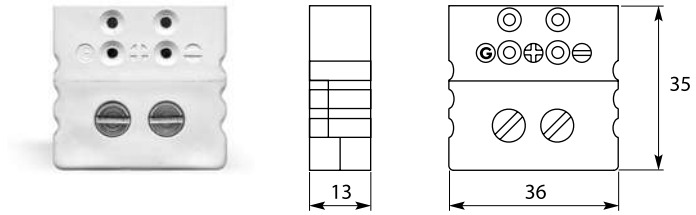

Male Miniature Connector **Ref. MMPT100**

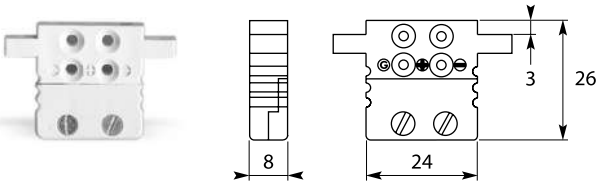

Female Miniature Connector **Ref. MFPT100**

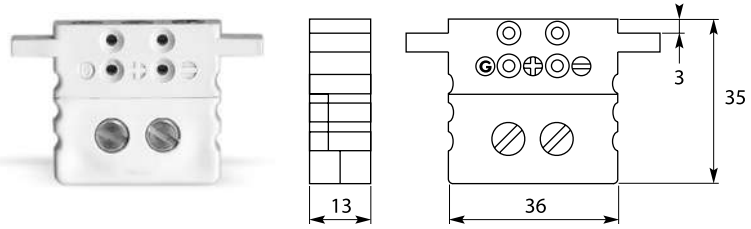

Female Standard Connector **Ref. SFPT100**

Miniature Panel Insert **Ref. EMFPT100**

Standard Panel Insert **Ref. ESFPT100**

Ref. SCS

Cable clamp for standard connectors

Ref. SCM

Cable clamp for miniature connector

Thermometer

PT100 High Resolution

Ref. THPRO PT

Range :	-199,99 à 199,99 ° C
Resolution :	0,01 ° C
Accuracy :	± 0,2 ° C
Battery :	3 x 1,5 volts AAA
Battery life :	2000 hours
Sensor Type :	Pt100
Display :	10mm LCD
Size :	25 x 56 x 128mm
Material :	ABS plastic includes Biomaster product protection
Guarantee :	2 years
Measurement scale	Celsius / Fahrenheit
