K1005-512
MAINTAINED ROCKER SWITCH

- **Cover Material: Neoprene**
- **Maintained action**
- **SPST**
- **Positive tactile actuation**

CPI's K1 Series rocker switch is a unique problem solver for the most demanding harsh environment applications. It is a part of our waterproof product offering, and is therefore truly submersible – not just splashproof or water resistant. Maintained rocker switches are designed for manual applications, and have positive tactile actuation.

Typical Applications

- **Bilge pump Switches**
- **Welder's Torch Switch**
- **Laser Sighting Switch**
- **Military Switches**
- **Power On Switch**
- **Remote Pendant Switch Controller**

Specifications	
Electrical Rating	28 VDC 15A resisitive, 7.5A inductive 120VAC 5 A resisitve, 3A inductive
Electrical Configuration	SPST
Endurance	100,000 cycles
Operating Temperature	-65 to 165°F / -53.9 to 73.9°C
Cover Material	Neoprene
Leads	16 AWG Neoprene insulated wire, 18" / 457.2mm length
