Polyflex®

Providing flexibility and dexterity, Polyflex® is an outstanding performer for those tactile tasks

Polyflex® from Polyco is a seamless knitted nylon liner with a polyurethane palm coating specially designed to be low linting to reduce the risk of product contamination.

The close fitting design of the Polyflex® allows for maximum dexterity making it ideal for tactile applications. It has a polyurethane palm coating offering excellent grip in both wet and dry conditions therefore making it extremely versatile as a general handling glove. The back of the hand has been left uncoated, which keeps the hands cool in prolonged use. The elasticated knit wrist ensures a secure fit and keeps the hands free of dust and dirt.

CE EN388 4142

Case Quantity
12 pairs per polybag
120 pairs per case

Typically Used For

- Component Handling
- General Assembly
- Electronics
- Light Engineering Work
