AGC04

Combining gasket size 4

The polyethylene gasket will guarantee that the combined enclosures' protection degrees are maintained to protect components and equipment installed within it.

CHARACTERISTICS	
For opening	510 x 96
Gland plate type	4

Item no.: AGC04
EAN no.: 8713574071964

Technical data

Description: To be used when a wall mounted enclosures combination (MAS/MAD/MAP) is needed. Combining gaskets are to be used to bay gland plate openings together.

Material: 8 mm polyethylene foam.

Pack quantity: 2 pieces, and combination mounting accessories.

Features

Feature: A polyethylene gasket.

Advantage: Provides a sealing between the gland plate openings of two combined wall mounted enclosures.

Benefit: The protection degree of the combined enclosures is maintained.

Comment: You can combine any wall mounted enclosures if the width and depth are identical. The protection degree of the combined enclosures is adjusted to the enclosure with the lowest protection degree.
