TECHNICAL SPECIFICATION

Hardcap Aerolite® 60° Micro Peak

Hi-Vis Yellow / AAG002-101-500

DESCRIPTION

Designed by JSP's in-house Research and Development team, the HardCap AeroLite® 60° weighs less than 135g without compromising on performance. The protective liner is fully washable at 60°C for good hygiene and extended life cycle.

SPECIFICATIONS

- Peak: 2.5cm
- Maximum Temperature: +50°C
- HDPE Shell: Yes
- EPP Liner: Yes
- Ventilation: Yes
- Anti-bacterial Coating: Polygiene®
- BSI Kitemark: Yes
- Product Weight: 127g
- Size: 53-64cm
- Impact Resistance: 12 Joules x 4
- Minimum Temperature: -40°C
- Recyclable: Shell
- Slip Ratchet: Slip
- Reflective Option: No
- Product Weight: < 135g
- Machine Washable At: Max 60°C
- Optional 2 point chinstrap (EN397 & EN 812 compliant): Optional

FEATURES

Full HDPE Shell

Underneath the sleek textile cover is a tough HDPE shell and a lightweight EPP impact liner, carefully designed to allow for flexibility and comfort for the wearer.

Fit & Comfort

There is replaceable padding to provide extra comfort and a better fit. The comfort pad and the sweatband are moisture wicking to move sweat away from the skin

Air Flow Technology

The cover has large open weave panels allowing the easy transfer of cool air. This substantially reduces heat build-up and discomfort for the wearer, especially when worn over long periods.

Embroidery Logos

Get your logo embroidered onto the front or back of your Hardcap A1+, HardCap Aerolite® or HardCap Aerolite® 60°.

JSP Logo Express®

Strengthen your corporate identity by applying a company logo on a range of our safety helmets. Minimum order quantities and set-up charges apply.

Reflective Areas

Large reflective areas on the side panels of the cover and reflective piping around the peak provide extra visibility and improved safety in low-light conditions. Not available on HardCap Aerolite® 60°

Peak Options

Available in black or blue as standard and with either a 50mm or 25mm peak. The longer peak provides better shade and the shorter peak provides improved vision when looking upward.

Anti Bacterial

The cover is removable and machine washable. The sweatband and padding are treated with Polygiene®, which reduces skin irritations, odours and wash cycles, and prolongs the lifetime of the fabrics.

Heat Transfer Logos

Heat transfer your logo onto either the front, back or side of your Hardcap A1+, HardCap aerolite or HardCap aerolite60°.
