Technical sheet

PPC500LOB

Foldable plastic sign post with weighted base - white

Premium marking bollard designed for easily marking off access, whether temporarily or permanently. The bollard is foldable, saving storage space, and has a weighted base filled with concrete. Made from ABS and polypropylene materials, it features two rings â€“ one with holes and the other with hooks â€“ for attaching chains in four different directions, along with a threaded top for adding information signs. Available in various colours. Please note that chains and information signs are sold separately.

EAN 3321360050236
HS Code 39269099

Color : White/Black
Made of : ABS / Polypropylene
