Technical sheet

PARKSTOP130

Rubber parking stop with asphaltfixing-1,30m

Parking stop ideal for securing, delineating, and organizing parking spaces as well as separating traffic lanes. Its black and yellow color allows it to be very visible even from a distance thanks to its Class 1 reflective yellow stripes. Made of rubber with polymer, pigments, and glass microbeads strips. It has 4 reflectors, 2 20mm diameter cable pass-throughs, and hole cover caps. The possibility of adding LEDs to increase its visibility. Resistant to grease, acids, and temperatures ranging from -40 to +60Â°C. Supplied with asphalt fixings. Available in different lengths.

EAN_____0
HS Code_____4016999790

Color : Black/Yellow
Made of : Rubber

Specifications :

- Parking stop ideal for securing, delineating, and organizing parking spaces as well as separating traffic lanes
- Polymer bands, yellow reflective class 1 pigments and glass microbeads
- 4 reflectors, 2 20mm diameter cable pass-throughs, and hole cover caps
