NEW Germ-Savvy® A4 Foldover Clipboard

Portable, practical and with an antibacterial protection…

These new polypropylene (PP) clipboards with low profile clips complement our existing range of clipboards, but this foldover clipboard features our special Germ-Savvy® antibacterial agent, which kills 99% of bacteria. Not only is this long-lasting, portable clipboard safer due to its protection agent but the low profile clip is more convenient for storage, as well as being less bulky and more lightweight to transport, whether that be in a rucksack, briefcase or held in the hand; ideal for businesses, individuals and schools alike. Additionally, its matt textured black cover is made from durable, non-toxic polypropylene material making it acid and PVC free, another safety bonus. The black coated metal clip is riveted to the board for stability and features a strong spring mechanism to hold your papers in place, whilst the plastic corners give added grip and protection so your papers are held securely and don't get damaged. The clip will hold papers or a refill pad of up to 100 sheets (80gsm) as well as smaller paper sizes - such as sticky notes and it also doubles up as a handy slot to hold your pen/pencil.

Most best-selling clipboards on the market are primarily made from PVC plastic covered board, which is not environmentally friendly as it uses oil and chlorine in the extraction process. PVC also releases toxins during the breakdown process which is also another downfall environmentally speaking. So, in comparison, our new foldover clipboard is made from PP material – no toxic waste, no toxic emissions and with Germ-Savvy® protection.

Germ-Savvy®

Features

Germ-Savvy® antibacterial treatment included on polypropylene material – ISO: 22196:2011
Durable and portable foldover clipboard with low profile clip and 12mm spine
Made from rigid and strong 1200 micron polypropylene material
Matt brushed textured outer cover with rounded corners on the edges for added safety
Practical foldover cover protects your work and helps keep it secure
Smooth inner cover provides a perfect writing surface
Sturdy black coated 95mm wide metal clip with plastic protected corners for a more secure grip
Easy maintenance - PP cover can be wiped clean but the antibacterial protection is built into the material so will not wash off
If your pen lid has a clip, you can keep your pen handy by clipping it onto the spine of the board
Easily holds paper up to A4 in size
A4: W - 236mm x H - 320mm x D – 12mm
