

Ergo-Q Hybrid Pro

Bakker Elkhuizen

The Ergo-Q Hybrid Pro is a tablet- and laptop stand in one, and the perfect tool for your hybrid workstation.

Hybrid – Two methods of height settings.

With the Ergo-Q Hybrid Pro you have the choice between two height adjustment ranges with in total 25 height adjustment levels, which vary between 140 mm and 430 mm.

Ergonomic background

Adjust your laptop screen to the correct height, angle, and distance so that you automatically adopt an ergonomically correct posture.

1. Distance between your eyes and the screen should be 50-80 cm (approximately an arm length), depending on monitor size and resolution. Adjust the distance of your screen.

2. The angle of your line of vision to the middle of the screen should be approximately -35°, so also adjust the height of your screen.
