Polyco® SIGMA

Volcano™

Heavyweight protection for those heated situations

Volcano™ is an extra heavyweight Kevlar® glove that provides optimum cut and tear resistance, and protection from contact heat. Made from 100% heavyweight Kevlar® the Volcano™ attains maximum EN388 scores for cut and tear resistance. Achieving Level 3 for contact heat, it can withstand temperatures of 350°C providing exceptional protection against heat. It has a heavyweight knitted cotton inner liner which gives a degree of comfort, flexibility and dexterity not normally associated with such protection levels. The glove also has good abrasion resistance, which enhances its mechanical protection and increases durability. It is available in two lengths, for when additionalprotection to the forearm is required. These properties make the Volcano™ the ideal choice of glove in industries where there is a risk from both cut and heat injuries.

Typically used for:

- Glass Manufacturing
- Steel Handling
- Bakery Work

Case Quantity:

1 pair per polybag
36 pairs per case

CE 0120 EN388 2541 EN407 43432X

Size	32cm	58cm
11	7564	7566
