Item no.: EPF0400
EAN no.: 8713574187429

Technical data

Description: Accessory to fix enclosures onto poles. Maximum load of 900N.

Material: Galvanized steel.

Minimum pole diameter: 80 mm.

Maximum pole diameter: 250 mm.

Pack quantity: 2 profiles, 2 circular mounting strips for pole attachment and mounting accessories.

Features

Feature: Pole fixation kit for modular polyester wall mounted enclosures.

Advantage: The kit allows for the installation of enclosures onto poles which have a diameter of 80mm to 250mm.

Benefit: Enclosures can be installed in applications where there are no flat mounting surfaces and can be mounted higher on a pole deeming the panel inaccessible, to minimise potential security issues.
