RIS 3279 TOM

SIO-SAFE™ EXTRA LIGHT

Hi-vis trousers with ARC protection

The Malton trousers are made of a soft, breathable and light but very protective fabric that retains its strength and protection even after extensive washing. The fabric protects you against heat, flames and chemical liquids and can be worn in many industrial environments. These hi-vis trousers also meet the requirements of the British RIS-3279-TOM standard for high visibility clothing worn by people in the rail industry and ensures that rail workers on or near the trackside are sufficiently visible to any traffic.
