Agilent Technologies

34190A Rackmount Kit

Description

The Agilent 34190A rackmount kit is designed for use with only one instrument, mounted on either the left or the right side of the rack. The kit includes one rack flange and one half-rack width filler panel, 4 screws to attach the instrument, 4 rack screws with nuts and installation instructions in English.

The Agilent 34190A is compatible with the Agilent 34410A, 34411A, 34401A and 34420A DMMs, the Agilent 34970A Data Acquisition Switch Unit, the Agilent 53131A, 53132A and 53181A counters, the Agilent 33220A, 33120A and 33250A sources and most other 2-slot, half rack sized Agilent products.

- Rack cabinet: System II or System II Plus
