TLMR 201/38WA2

Electro-mechanical single point automatic lubricator, 12-24V DC powered

TLMR101/38WA2 is filled with SKF LGWA 2 grease for wide temperature ranges and extreme pressures, recommended for electric motors, conveyors, fans and pumps. With a relatively high pressure, SKF TLMR can operate at long distances and provide optimum results with difficult-to-reach and unsafe lubrication points. Its robust design makes them suitable for operating in a wide temperature range in presence of vibrations. Powered by batteries or 12-24 V DC by plug M12-A (not included) and delivered with or without grease.

- Flexible temperature independent dispense rate from 1 to 24 months
- Available cartridges of 120 and 380 ml of SKF grease
- Maximum discharge pressure of 30 bars (435 psi) during the dispensing period

- Wide temperature range, especially suitable for engine rooms, and hot fan applications, as well as wind turbine applications.
