NANUK™
PROFESSIONAL PROTECTIVE CASES

NEW SIZE

980

MID-SIZE WITH MAX-PROTECTION

The **NANUK 980** is a mid-size, long case that's versatile enough to protect not-so-long gear, lots of smaller gear, or both. Not as lengthy as our Long Cases, but twice as long as some our Medium Cases, it's built to protect valuable equipment in tough conditions.

The **NANUK 980** is designed with deeper ribs that give it better stability for stacking, storage, transport, and quick access. At the same time it's just the right size and light enough for personal carry.

Like all **NANUK** waterproof protective cases, the **980** is made of crushproof NK-7 resin certified to withstand extreme impact and continuous vibration – in other words, it's indestructible. It's also equipped with an oversized spring-loaded carry handle as well as four (4) of our legendary Power Claw latches and will never open accidentally.

The **980** comes with our lifetime warranty, your assurance that we build cases to protect your most valuable gear for life. Compatible accessories include TSA Approved Latches as a retrofit kit, TSA Approved locks, Panel Installation Kit, Cubed Foam, Padded Dividers, Lid Organizer and Shoulder Strap.
