HELAVIA® universal flexible DV wire-clamps
in polychloroprene rubber (Neoprene) black
(for technical properties see page D100)

HELAVIA®
-30 to +90°C
RoHS

For protection and strain relief, very effective when used with SES-QUICK cable ties.

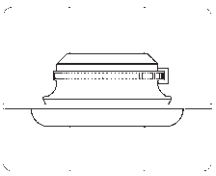

• DV wire-clamps in Bags, without ties

HELAVIA® grommets DX,
in polychloroprene rubber, black
(for technical properties see page D100)

HELAVIA®
-30 to +90°C

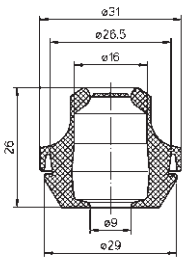

Sealing grommets DX according IP66/IP67: dust proof, protection against temporary flooding, as well as when submersed under water.
The grommets DX are applied for cable diameters 10 - 20 mm and with a metal thickness of 1 - 4 mm. Owing to the closed cover, it is possible to use it as a temporary seal for a later wiring.In order to introduce the cable, the cover can be perforated for example with the help of a screwdriver.

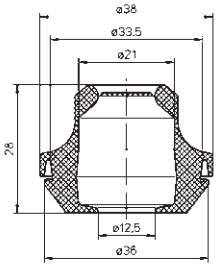

The hole diameters correspond to the metric gland.

Application: for all exits of panels, enclosures and housings of all types, etc.

type	article number		hole Ø (mm)	wires Ø (mm)	metal thickness mm
DX 10 - 15	0252 0603 010	100	25,5	10 - 15	1 - 4
DX 14 - 20	0252 0604 010	50	32,5	14 - 20	1 - 4

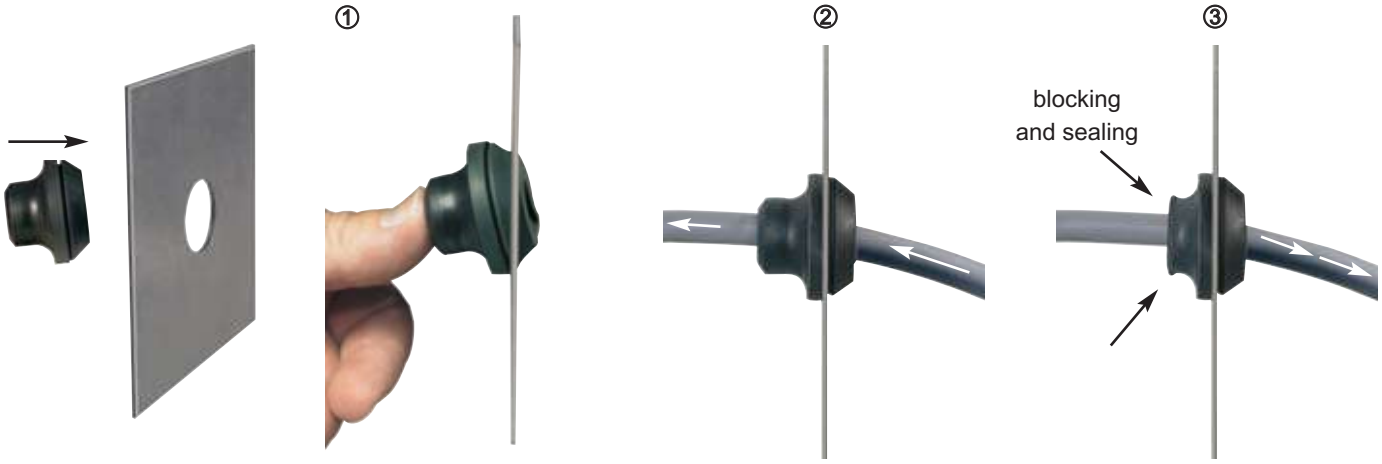

DX 10-15
0252 0603 010

DX 14-20
0252 0604 010

Assembly instruction :
1. Push the grommet in the hole
2. Introduce the cable from the outside to the inside.
3. Pull the cable towards outside for blocking and sealing.

Push - introduce - pull. It is so easy.

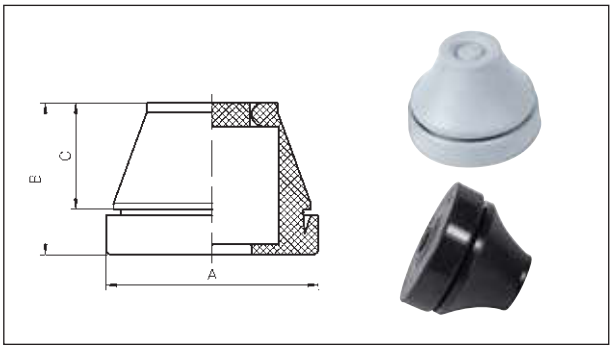

DX grommets, sealing
in EPDM rubber

SH RoHS

DX-M / DX-PG

Material: EPDM
Colour: black
grey (RAL 7035)
Temperature of use: -40 to +110°C
Specification: IP 67 according to EN 60 529

Applications: Grommets, sealing for all exits of panels, enclosures and housings of all types, etc...

• Metric grommets
