Polyco® SIGMA

Multi-Task 3™ & Multi-Task 5™

Unparalleled versatility, comfort & sensitivity

Multi-Task™ is a close fitting mechanics style glove. It is available in two styles, three open fingers and fully fingered, to give the user the optimum balance of dexterity and protection. The glove is made from a combination of materials offering great freedom of movement, breathability and in-use comfort. The synthetic leather palm is padded and there are reinforced grip patches on the upper palm and fingertips for extra protection and improved handling ability. The Spandex to the back of the hand ensures that materials flex with the hand's natural movement, offering greater flexibility and eliminating hand fatigue during long periods of use. With a reinforced liner for comfort, reflective seams for safety and an adjustable Velcro® strap for a secure fit, all aspects have been covered making the Multi-Task™ a truly versatile glove.

Typically used for:

- Joinery
- Mechanics Work
- Cable Handling
- Machine operation
- Ducting/Pipework
- Plumbing
- Automotive Engineering

Case Quantity:

1 pair per polybag
