Hi-Viz™

Providing warmth & protection at excellent value

Hi-Viz™ is a general handling glove with a thermal high visibility liner and a crinkle latex palm coating. With good abrasion and cut resistance, and a maximum EN388 score for tear resistance, Hi-Viz™ not only provides good all round protection but is also extremely durable. The crinkle latex palm coating provides an excellent grip in both wet and dry conditions, and is highly elastic making it extremely flexible, allowing for prolonged use with minimum hand fatigue. The seamless fleecy liner is extremely comfortable and keeps the hands warm in cold conditions, and the elasticated knit wrist ensures a close fit and prevents any dust and debris from entering. These features along with its competitive price make the Hi-Viz™ an excellent choice for outdoor general handling duties. Also available on header card for easy display and allowing for lower order quantities.

Typically used for:

- General Handling
- Manual Handling
