20" STRAIGHT/BENT INNER RATCHETING CIRCLIP PLIER

- Sturdy all-metal construction
- Designed for internal circlips with diameters of 165–300 mm
- Integrated spring-loaded ratchet mechanism with locking function and release lever
- Straight and bent interchangeable tempered 3.5 mm diameter tips
- Powder-coated body for corrosion resistance
- Durable design for professional use

TengTools MB470-20 20" circlip plier with ratchet function is a sturdy and robust all-metal tool, designed for the installation and removal of internal circlips with diameters ranging from 165 to 300 mm. Featuring an integrated spring-loaded ratchet mechanism with a locking function and release lever, it maintains the circlip in a compressed state, facilitating both installation and removal. The pliers come with straight and bent interchangeable tempered 3.5 mm diameter tips, which are durable and resilient to withstand daily use in professional settings. The pliers' body is powder-coated, providing enhanced corrosion resistance and extended lifespan.

General information

Country of origin: Taiwan
Barcode: 5020385072220
