COMMON RAIL DUMMY REGULATOR SET

SKU	DESCRIPTION
900.CRRPF	COMMON RAIL CAPS KIT

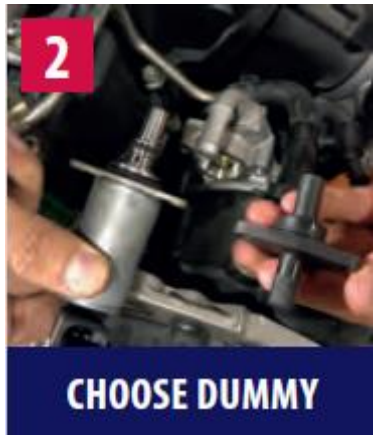

Kit includes 8 different dummy to seal any regulator ports

This set, used in association with HU35026, will allow to bypass the pump's regulator and measure the pressure to diagnose any regulator or pump issue

After observing the weak pump pressure : Simply remove the regulator and choose the right dummy plug to bypass and seal the port. If the pressure comes back to normal, the regulator causes the loss of pressure. If the pressure stays too low, the pump is defective. This test is recommended by manufacturer of high pressure pumps

Kit includes 6x M12x150 plugs and 6x M14x150 plugs
