

Rakego folding bracket

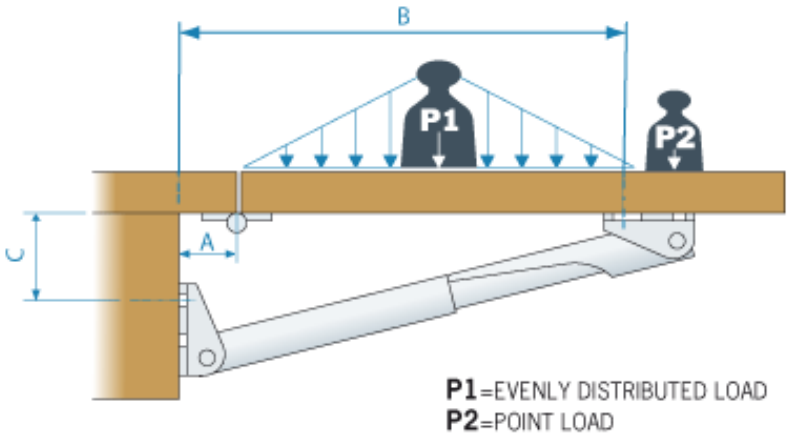

Rakego is a telescopic aluminium-support where a large amount of requirment for quality is met. The support has a large number of possibilities. Specially suited for drop leavs, work benches, tables and especially for small spaces. It is a compact alternative comparing to other constructions, for example tables, shelfs etc. With great success the Rakego-support has been introduced to, among other things family boats. The support can be obtained in different dimensions depending on pressure-conditions. We do not know in what way you will use the Rakego-support, we just know you will find it excellent and easy to handle. Patent reg.

* Easy to fold
* For drop leaf up to 600 mm
* Load capacity up to 140 kg
* Material for harsh conditions
* Elegant and compact design

Material: Aluminum (AA6061)/Stainless steel (AISI304)
Treatment: Natural anodized

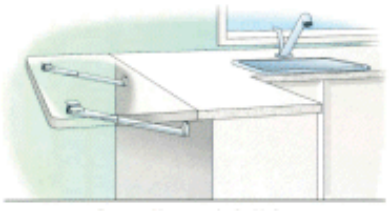

» See Rakego Movie on YouTube Hints how to choose Rakego support:

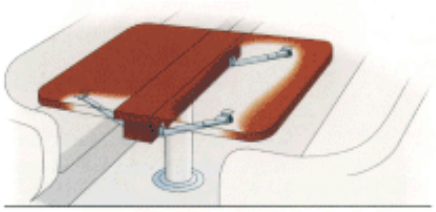

Art.no.	A = mm	B = mm	C = mm	P1 (kg)	P2 (kg)
382020	23-30	150	14	60	30
382025	28-30	161	15	70	35
383020	23-35	247	44	60	30
383025	28-39	252	45	95	55
384520	23-46	392	86	60	30
384525	28-50	402	87	120	60

Frigörning av spärr.
Lyft lite i fällskivans ytterkant samtidigt som du med ett finger trycker på stödets yttre rördel och fäller skivan.

Release the catch.
Slightly lift the outer edge of the board and simultaneously press the support´s outer part of the tube with a finger and downfold the table.

Montering vid stor belastning, montera gångjärnet ovanpå listen enligt bilden.

When you have heavy loading, you mount the hinges on the top of the hatch as shown in the picture.
