SAFETY GUIDELINES

Always read the instructions carefully before use.

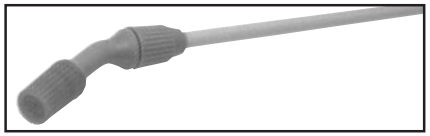

- Always use with care. **Caution:** Your pressure sprayer is not suited to use with inflammable goods, this could caused fire and injury.
- Always keep out of reach of children.
- Always release the pressure if the sprayer is not in use.
- Always rinse inside the container with clean water after use to avoid corrosion and to also avoid any residual pesticides mixing with other pesticides causing a chemical reaction.
- Always clean the head of the hose after use to prevent any blocking.
- Always wear eye protection, a face mask and gloves when using the sprayer
- Always dispose of residual pesticides in accordance with local regulations.
- Always store the sprayer in a cool dark place after use.
- Never spray pesticide facing the wind.
- Never spray pesticide at other people, animals and food.
- Never operate under high pressure.
- Never use high toxic or high residual pesticide for the treatment of insects on vegetables, fruits, tea and medicinal herbs.
- Never allow the temperature of the liquid you are using to exceed 35°C.
- Never fill the tank above the indicated maximum level.
- Never use hot liquids. **Caution:** If any kind of damage or corrosion is found on the container or the hose stop using the sprayer immediately.
- Never leave unattended.
- Never drop.
- Never use if damaged.

Order Code:	**RTL-523-4320K**
Model Number:	GPS005
Capacity:	5 Litres
Hose:	130mm
Spray lance:	425mm
Dimensions WxHxD:	182 x 434 x 182mm
Gross Weight:	1.18kg
Net Weight:	0.98kg

NOZZLE

Spray head nozzle: Suitable for spraying pesticide and insecticide to prevent diseases and kill insects. Sprays evenly and is suitable for spraying crops as well as spraying weed-killer.

The Rutland pressure sprayer is economic, safe and efficient. It is especially suitable for the treatment of diseases, infestation of crops, plants and gardens and for environmental sanitation of public places.

INSTRUCTIONS

- Firstly connect one end of the hose to the spray lance.
- Connect the other end of the hose to the spraying tank.
- Assemble and attach the shoulder strap to the spraying tank.
- Unscrew and pour the spray preparation into the tank (Fig.1).
- Pump the handle up and down without forcing. To maintain pressure during use continue to pump the handle in an up and down motion.

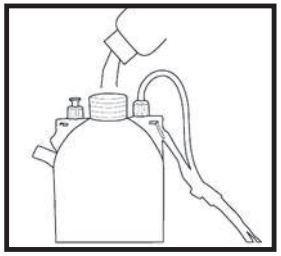

Fig. 1

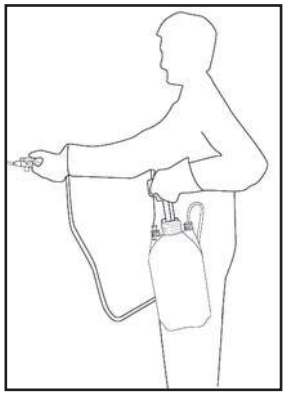

Fig. 3

- Spray, pressing on the trigger with your thumb (Fig.2).
- The spray may be adjusted by tightening or unscrewing the nozzle.
- During use maintain pressure by pumping the pump handle (Fig. 3).
- After each use carefully rinse out the tank and then spray a large amount of fresh water through the nozzle to ensure any residual pesticide is rinsed out.

TROUBLE SHOOTING

Should the Sprayer not function correctly, you may need to check for the following:

Check that there is liquid in the tank and pump the pump handle several times until it offers a certain amount of resistance.

Make sure that each part is tightly sealed.

Make sure that the pump is screwed down tightly onto the tank.

If there is no flow even though the sprayer has been pressurised check that the spray lance is unsoiled and clean.
