SENATOR QUALITY TOOLING

DATA SHEET

Paint Roller Tray, 7"

Designed to evenly coat the roller whilst storing paint in the reservoir, this plastic paint roller tray is ideal for holding paint when working on a large area. The drain-off area helps remove excess paint from the roller thus preventing drips.

Features and Benefits

- Drain off area helps to remove excess paint form the roller
- Allows for even coating of your roller
- Manufactured from durable and corrosion resistant plastic for a long product life

Typical Applications

- DIY
- Painting and Decorating

Note.
For 180mm paint roller sleeve and frame please see e.g. SEN-533-4200K and SEN-533-4250K.
