SENATOR QUALITY TOOLING

DATA SHEET

Three Tray Tool Trolley (Flat Pack)

Manufactured from steel and bolted, this three tier tray trolley is particularly of use when transporting tools in a workshop or warehouse space. Fitted with four swivel castors, two of which are braked, this three tray tool trolley is fully manoeuvrable. Each tray has a maximum load of 45kg and is finished with a red epoxy powder coat paint.

Features and Benefits
- Constructed from high quality bolted steel to ensure product longevity
- Epoxy powder coat paint finish to bolster resistance to wear and tear
- Fitted with three trays to ensure there is ample storage for your desired tools and other objects

Typical Applications
- Ideal for use when transporting tools from one area to another in a workshop
- Suited to industrial use, particularly in the automotive industry

Note.
Self assembly, product comes flat packed.
