Spare Blades For Bench Shear KEN4482364F

Replacement cutting blades designed for bench shears, providing a simple way to restore cutting performance and extend the working life of existing equipment.

Features and Benefits

- Replacement steel blades restore clean, accurate cutting performance on worn bench shears
- Precision cutting edges allow smoother material cutting with reduced effort
- Direct-fit design enables quick blade changes to minimise downtime
- Durable construction supports long service life in workshop and fabrication use

Type	Replacement Blade
For Use With	Set of spare blade for KEN4482364F
