Post Hole Digger, Corkscrew Action, 1100mm Overall Length, Steel Handle

This tubular steel post hole auger provides an easy non-mechanical means of creating holes when erecting fencing posts. When rotated in a clockwise direction the 150mm diameter thread bores a hole into the soil or clay, with an optional hole depth to suit the length of the post to be secured.

Features and Benefits

- Carbon steel blade and handle offers durability and resilience
- T handle fits comfortably in both hands and increases leverage
- Corkscrew blade offers consistent hole size
- Weighing just 3.35kg, reduces fatigue and makes it easy to handle

Blade Finish/Coating	No Coating
Blade Length	340mm
Blade Material	Carbon Steel
Blade Width	150mm
Handle Material	Steel
Shaft Material	Steel
Length	1100mm
Insulated	No
