KN Safety Glasses, Clear

The KN Safety Glasses, Clear, combine high performance and quality to deliver exceptional eye protection in demanding environments. Designed for comfort and durability, these glasses feature flexible arms and a lightweight frame for prolonged wear. The anti-scratch and anti-fog lenses ensure clear vision and long-lasting use, while their compliance with EN166 KN standards guarantees reliable safety against debris and workplace hazards. Ideal for professional and everyday applications.

Features and Benefits

- The wraparound frame offers a curved, close-fitting frame provides panoramic coverage and a secure fit, offering superior side protection and a sporty, modern look.
- Certified for consistent protection against low-energy impacts with thermal resilience, maintaining clarity and integrity even in challenging temperature extremes.
- Resistance features prevent fogging and reduces wear-related scratches for lasting clear vision.
