SWISS+TECH

DATA SHEET

M6x1mm HSS-EV Spiral Point/Gun Nose ISO Oxidised Tap - Metric

'Blue Ring'
With a strong high speed steel construction for improved rigidity when machining and a black oxide finish for improved wear and heat resistance, the 'Blue Ring' range of gun nose taps from Swiss + Tech are ideal for tough application and through holes.

Features and Benefits

- High speed steel construction for improved rigidity when machining
- Black oxide coating for reduced heat and improved wear resistance
- Gun nose spiral for through hole cutting

Technical Specifications

- Thread size: M6
- Pitch: 1mm
- Thread length: 17mm
- Shank diameter: 6mm
- Square width: 4.9mm
- Overall length: 80mm
- Thread direction: Right hand
- Number of flutes: 3
- Material grade: M35
- Class of fit: 6HX

Standards

- **DIN 371**

Note.

Available in sizes 0.4-2mm.
