

Tool Cabin

The NEW tool cabin is excellent in storage, movement and work efficiency.

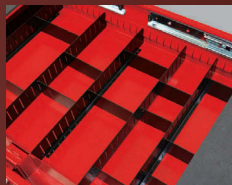

Hope users can take it as a "partner" and use it longer.

Wide store space

Besides the drawers, screwdriver stand and T-type wrench run were also set.

Settlement

Store space can be arranged by your needs.

Workbench

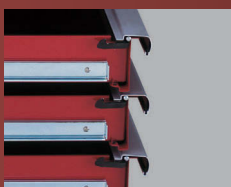

Workbench with protective mat can be used for setting measure instruments.

Bearing type double rails drawers

Drawer and workbench with ballbearing type double rails can be moved smoothly when it is heavy-loaded.

Drawer lock mechanism

Prevent the tools from dropping.

Swivel wide caster

Swivel wide caster makes moving smoothly.

Double stopper organization

Four wheels adopt double stopper system to lock a wheel revolution and neck pretense turning at the same time.

Keylock

No worry for security.

CAUTION

- Open the drawers with care since the tool storages with four universal wheels tend to lose their balance.

For support your activity and tool organizing, turn to this page to find more details!
