

USB 3.2 Gen 1/3.1 Gen 1(USB 5Gbps) Flash Drives JetFlash 920

Introducing Transcend's high endurance, high performance JetFlash 920, a USB flash drive that is anything but ordinary. Boasting sensational read speeds of up to 420MB/s and write speeds of up to 400MB/s, the JetFlash 920 delivers top-notch performance in a sleek and portable design. Its fashion housing will safeguard your data wherever you go.

Not your usual USB flash drive

Endurance where it matters

Rigorous day-to-day use requires a USB with continued efficiency and durability. Whether you need to transfer a ton of graphics/HD videos on a daily basis, or use a USB for a write-intensive application, like storage for a Tesla dashcam or Sentry Mode, you can count on Transcend's JetFlash 920 to get things done without a hitch! This high-endurance drive is sure to keep your important data secure and intact.

Sleek Glow

Safeguard your data with Transcend's JetFlash 920, whose fashion housing with a sandblasted finish is as sturdy as it is sleek. Highly portable doesn't mean fragile, at least not with the JetFlash 920, whose durable design offers top-notch protection of your data inside and out.
