YAMOTO

DATA SHEET

1/2" Square Drive Composite Ratchet

With a 1/2" square drive, this quality composite reversible ratchet handle possesses a reverse lever, push button quick release and an offset handle to help eliminate knuckle scrapes. Manufactured from composite material making it very light yet still very hard wearing, the 72-tooth gear drive for delivers on power and the chrome vanadium core further enhances the tool's strength. Finished in an attractive black and yellow colour.

Features and Benefits

- Chrome vanadium steel core for bolstered strength
- Push button quick release to release the tool from the work piece
- Offset handle reduces the risk of knuckle scrapes

Technical Specifications

- Drive size: 1/2"
- No of teeth: 72
- Overall length: 250mm (10")

Typical Applications

Ideal for use in the following industries:

- Automotive
- Plumbing
- Engineering
- Construction
