

6003 Joker Pedal Combination wrench, 15 x 174 mm

6003 Joker Combination wrench - Open end with return angle of just 15°. When things get tight.

EAN:	4013288220677	Size:	250x50x23 mm
Part number:	05020221001	Weight:	105 g
Article number:	6003 Joker Pedal	Country of origin:	CZ
		Customs tariff number:	82041100

- Especially suitable for tight spaces
- The special open end geometry expands the placement possibilities of the tool
- The low return angle in the open end "takes" the screw every 15°
- Slim ring side with 15° crank
- Joker 6003 pedal size 15 with flat open end to mount and dismount pedals
- With Take it easy tool finder: colour coding by size

The extra thin pedal wrench 6003 Joker Pedal is ideal for narrow installation spaces.

6003 Joker Pedal Combination wrench, 15 x 174 mm

6003 Joker Combination wrench - Open end with return angle of just 15°. When things get tight.

6003 Joker Pedal

Joker 6003 pedal size 15 with flat open end to mount and dismount pedals

The extra thin pedal wrench (6003 Joker 15 Pedal) is ideal for narrow installation spaces

For very tight spaces

The Joker 6003 ring spanner with its special open end geometry - open end offset by 7.5° and the double hexagon profile - doubles the placement possibilities when repeatedly turning the wrench 180° around the longitudinal axis. Bolts and screw heads can be "accessed" every 15°. The Joker 6003 will automatically find the respective placement point after every turn.

Joker 6003: For return angles of less than 30°

Thanks to the open end side offset by 7.5°, double hexagon geometry and an adjusted application method (placement - screwdriving - turning - replacement - screwdriving - turning, etc), even screwdriving challenges allowing a return angle of less than 30° can be solved.

Double-hex geometry

The double hexagon geometry on the open end and ring sides secures the positive connection with the screw head or bolt and reduces the risk of slipping.

Joker 6003: Tilted ring side

The ring side is tilted at 15° to the tool axis to prevent injury.

Take it easy tool finder

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
