- Handle/Interchangeable blade system for rapid exchange of the blade
- Stubby bit hand holder: short compact shape for working in confined spaces
- Ergonomic 2-component Kraftform handle for precise work
- Bits with BiTorsion zone to cushion load peaks
- Take it easy tool finder: colour coding according to profile and size

Handle/interchangeable blade system for lightning fast replacement of the required blade. Especially small bitholding Stubby screwdriver handle with short blade for hard to reach areas. Suitable for the mounting of bits with 1/4" hexagon drive as per DIN ISO 1173-C 6.3 and Wera connection series 1. With strong permanent magnet, which also holds large and heavy screws. The 2-component Kraftform handle with its practical combination of hard and soft zones allows for a firm grip and precise working. High-quality BiTorsion bits with BiTorsion zone to prevent twisting of the bit tip under high loads. This significantly increases product life. Compact, textile box with high robustness, low weight and volume. Suitable for docking with the Wera 2go system.

Compact shape

With its compact handle shape and the short blade, the Kraftform Stubbies are particularly suitable for working in confined screwdriving situations.

Tangible ergonomics

The 2-component Kraftform handle allows high power transmission due to the non-slip, softer grip areas and high working speeds due to the hard grip areas, which allow a quick hand switch.

Non-roll feature

The hexagonal non-roll feature prevents any rolling away at the workplace.

BiTorsion Bits

Premium bits with torsion zone into which kinetic energy is dissipated during peak loads. With softer BiTorsion zone to prevent the bit tip from twisting at high loads. This significantly increases product life. Tough design for universal use.

Bits with Take it easy tool finder

Take it easy tool finder with colour coding according to profiles and size stamp - for simple and rapid accessing of the required tool.
