Foam inserts with tools

Safe storage and quick overview

The tools sit securely in the foam thanks to precise contour cutouts, but are easy to remove. The carefully designed arrangement of the tools ensures space-saving storage and quick access to each tool.

Two-coloured foam insert

After removing the tool the light grey second foam becomes visible and therefore missing tools are quickly identified.

Individually tested

Safe working at voltages up to 1,000 V is guaranteed as all tools are individually tested at 10,000 V as per IEC 60900.

The 837 i RA bladeholding screwdriver with ratchet functionality

The integrated ratchet with fine toothing (40 teeth and a return angle of 9°) eases and accelerates screwdriving without having to reposition the tool.

Rapid screwdriving

The ratchet mechanism also allows fast "spinning" while screwdriving.

The 817 VDE bladeholding screwdriver

For Wera Kraftform Kompakt VDE interchangeable blades. With multi-component Kraftform handle for high working speeds and ergonomic screwdriving.

The bladeholding handles 837 i RA and 817 VDE

Both included bladeholding screwdrivers have a 9 mm hexagonal mounting for Wera Kraftform Kompakt VDE interchangeable blades.

Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.
