

## PIPE VISES

REACH

- Made from tough ductile iron. Hardened high carbon steel jaws, assure firm gripping. Special modes for plastic coated pipes available with finer teeth.

| Model No. | Capacity<br>Outer Dia. (US Pipe size) | Weight<br>Kg |
|-----------|---------------------------------------|--------------|
| PV-0200   | 63mm (2")                             | 3            |
| PV-0201   | 90mm (3")                             | 6            |
| PV-0202   | 114mm (4")                            | 9            |
| PV-0203   | 130mm (5")                            | 14           |

## FOOT VISES

REACH

- Heavy duty foot vise is made from tough ductile iron with easily replaceable jaws of hardened high carbon steel. Portable and stable grip for piping work on the ground instead of two pipe wrenches.  
- Jaws self-adjustment allows quick and solid setting to varying pipe sizes.  
Spring suspension eliminates a chance of jaws jamming or locking on pipes.

| Model No. | Size (mm) | Capacity<br>Outer Dia. (US Pipe size) | Weight<br>Kg |
|-----------|-----------|---------------------------------------|--------------|
| FV-0110   | 390       | 40mm (1/2 - 1.1/4")                   | 2.8          |
| FV-0120   | 460       | 63mm (1.1/4 - 2")                     | 5.5          |
| FV-0130   | 360       | 165mm (1.1/2 - 6")                    | 6.5          |

## TRI-STAND PIPE VISES

REACH

- Foldable tri-stand for easy carrying in or carrying out with Heavy Duty Pipe Vise of PV series.  
- Provides firm gripping at any job site.  
- Short leg model for easy carrying in-out to job site. Less storage space.

| Model No.           | Capacity<br>Outer Dia. (US pipe size) | Weight<br>Kg | Vise Height<br>from floor (cm) |
|---------------------|---------------------------------------|--------------|--------------------------------|
| <b>NEW</b> VLS-0100 | 63mm (2")                             | 9            | 58                             |

| VL-0101             | 90mm (3")                             | 16           | 84                             |

## INTERNAL PIPE WRENCHES

REACH

NEW

Aging plumbing sometimes end up breaking the pipe by no accident and leaves a piece of nipple or thread inside the wall or fittings.

Insert Internal Pipe Wrench, clean up using the reamer head, align the black jaw inside the broken piece to remove, then gradually turn the wrench to grab it.

It's so easy and quick. Without this tool, you could have end up breaking the wall.

- Designed for removing a piece of broken nipple or rotten pipe-thread from existing plumbing.  
- Reamer head for removing rust or cleaning inside for preparation.  
- Heavy-duty design with special alloy steel with reinforced design provides extra torque.

| Model No. | Pipe Size (inch) | Weight (g)<br>Kg | L (mm) | D (mm) | A (mm) |
