

# **Safety Data Sheet**

LOCTITE 272

Page 1 of 9

SDS No. : 153465 V001.4 Date of issue: 02.10.2020

# Section 1. Identification of the substance/preparation and of the company/undertaking

**Product name:** 

Intended use:

Anaerobic Adhesive

LOCTITE 272

Supplier:

Henkel Australia Pty Ltd 135-141 Canterbury Road Kilsyth, Victoria, 3137 Australia

Phone: +61 (3) 9724 6444

**Emergency information:** 

24 HOUR EMERGENCY CONTACT NUMBER: 1800 032 379

# Section 2. Hazards identification

# Classification of the substance or mixture

Hazardous according to the criteria of Safe Work Australia.

#### **GHS Classification:**

| Hazard Class<br>Acute toxicity                      | Hazard Category<br>Category 3 | Route of Exposure<br>Inhalation | <u>Target organ</u>          |
|---|-------------------------------|---------------------------------|------------------------------|
| Serious eye irritation                              | Category 2A                   |                                 |                              |
| Skin sensitizer                                     | Category 1                    |                                 |                              |
| Target Organ Systemic Toxicant -<br>Single exposure | Category 3                    |                                 | respiratory tract irritation |
| Acute hazards to the aquatic environment            | Category 3                    |                                 |                              |
| Chronic hazards to the aquatic environment          | Category 3                    |                                 |                              |
| Hazard pictogram:                                   | Sec.                          |                                 |                              |
| Signal word:  | Danger                        |                                 |                              |

| Hazard statement(s):                       | <ul> <li>H317 May cause an allergic skin reaction.</li> <li>H319 Causes serious eye irritation.</li> <li>H331 Toxic if inhaled.</li> <li>H335 May cause respiratory irritation.</li> <li>H412 Harmful to aquatic life with long lasting effects.</li> </ul>   |
|--|---|
| Precautionary Statement(s):<br>Prevention: | <ul> <li>P261 Avoid breathing dust/fume/gas/mist/spray</li> <li>P264 Wash hands thoroughly after handling.</li> <li>P271 Use only outdoors or in a well-ventilated area.</li> <li>P272 Contaminated work clothing should not be allowed out of the workplace.</li> <li>P273 Avoid release to the environment.</li> <li>P280 Wear protective gloves, eye protection, and face protection.</li> </ul>   |
| Response:                                  | <ul> <li>P302+P352 IF ON SKIN: Wash with plenty of water.</li> <li>P304+P340+P310 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or physician.</li> <li>P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P333+P313 If skin irritation or rash occurs: Get medical advice/attention.</li> <li>P337+P313 If eye irritation persists: Get medical advice/attention.</li> <li>P363 Wash contaminated clothing before reuse.</li> </ul> |
| Storage:                                   | P403+P233 Store in a well-ventilated place. Keep container tightly closed.<br>P405 Store locked up.   |
| Disposal:                                  | P501 Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations.  |

#### Dangerous Goods information:

Not classified as Dangerous Goods according to the criteria of the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code).

# Section 3. Composition / information on ingredients

General chemical description: Type of preparation: Mixture Methacrylate resin based threadlocker

# **Identity of ingredients:**

| Chemical ingredients                              | CAS-No.   | Proportion  |
|---|-----------|-------------|
| 1,1'-(1,3-phenylene)bis-1H-pyrrole-2,5-dione      | 3006-93-7 | 10- < 30 %  |
| $\alpha$ , $\alpha$ -dimethylbenzyl hydroperoxide | 80-15-9   | 1- < 3 %    |
| maleic acid                                       | 110-16-7  | < 1%        |
| non hazardous ingredients~                        |           | 60- < 100 % |

| Ingestion: | Get medical attention.                                  |  |
|------------|---|--|
|            | Keep individual calm.                                   |  |
|            | Do not induce vomiting.                                 |  |
| Skin:      | Wash with soap and water.                               |  |
|            | If symptoms develop and persist, get medical attention. |  |
|            | Wash clothing before reuse.                             |  |
|            | Remove contaminated clothing and footwear.              |  |

| Eyes:                                    | Get medical attention.<br>Flush with copious amounts of water, preferably, lukewarm water for at least 15 minutes,<br>holding eyelids open all the time. |
|--|--|
| Inhalation:                              | Move to fresh air.<br>If symptoms develop and persist, get medical attention.  |
| First Aid facilities:                    | Eye wash and safety shower<br>Normal washroom facilities   |
| Medical attention and special treatment: | Treat symptomatically and supportively.  |

# Section 5. Fire fighting measures

| Suitable extinguishing media:                   | If product is involved in fire extinguish with dry powder, foam or carbon dioxide.                                    |
|---|---|
| Decomposition products in case of fire:         | Oxides of nitrogen.<br>Oxides of carbon.<br>Thermal decomposition can lead to release of irritating gases and vapors. |
| Special protective equipment for fire-fighters: | Wear self contained breathing apparatus.<br>Wear full protective clothing.  |
| Additional fire fighting advice:                | In case of fire, keep containers cool with water spray.   |

| Section 6. Accidental release measures |  |  |
|--|--|--|
| Personal precautions:                  | Avoid skin and eye contact.  |  |
| Environmental precautions:             | Do not let product enter drains.   |  |
| Clean-up methods:                      | For small spills wipe up with paper towel and place in container for disposal.<br>For large spills absorb onto inert absorbent material and place in sealed container for<br>disposal. |  |

# Section 7. Handling and storage

| Precautions for safe handling: | Use only in well-ventilated areas.<br>Avoid skin and eye contact.<br>Prolonged or repeated skin contact should be avoided to minimise any risk of sensitisation.        |
|--------------------------------|---|
| Conditions for safe storage:   | Store in original containers at 8-21°C (46.4-69.8°F) and do not return residual materials to containers as contamination may reduce the shelf life of the bulk product. |

# Section 8. Exposure controls / personal protection

# National exposure standards:

None

| Engineering controls:<br>Eye protection: | Ensure good ventilation/extraction.<br>Wear protective glasses.   |
|--|---|
| Skin protection:                         | Wear suitable protective clothing.<br>The use of chemical resistant gloves such as Nitrile is recommended.<br>Please note that in practice the working life of chemical resistant gloves may be<br>considerably reduced as a result of many influencing factors (e.g. temperature). Suitable<br>risk assessment should be carried out by the end user. If signs of wear and tear are noticed<br>then the gloves should be replaced. |
| Respiratory protection:                  | Use only in well-ventilated areas.<br>If inhalation risk exists, wear a respirator or air supplied mask complying with the<br>requirements of AS/NZS 1715 and AS/NZS 1716.  |

# Section 9. Physical and chemical properties

| Appearance:  | Orange-red<br>liquid    |
|--|-------------------------|
| Odor:  | characteristic          |
| pH:  | 3 - 6                   |
| Specific gravity:  | 1.11                    |
| Boiling point:   | > 149 °C (> 300.2 °F)   |
| Flash point:   | > 93.3 °C (> 199.94 °F) |
| (Tagliabue closed cup)   |                         |
| <b>Vapor pressure:</b><br>(; 80 °F (26.7 °C))  | < 5 mm hg               |
| Solubility in water:   | Slight                  |
| Viscosity (dynamic):<br>(Brookfield; Instrument: RVT; 25<br>°C (77 °F); speed of rotation: 20<br>min-1; Spindle No: 4; Method: ;;<br>LCT STM 10; Viscosity | 5,000 - 11,000 mPa.s    |
| Brookfield)<br>VOC content:<br>(2010/75/EC)  | < 3 %                   |

# Section 10. Stability and reactivity

| Conditions to avoid:              | See "Handling and Storage" (Section 7) and "Incompatibility" (Section 10). High temperatures.                 |
|-----------------------------------|---|
| Incompatible materials:           | Reducing agents.<br>Strong alkalis.<br>Strong acids and oxidizing agents.<br>Other polymerization initiators. |
| Incompatible materials:           | No data available.  |
| Hazardous decomposition products: | Oxides of carbon.<br>Oxides of nitrogen.<br>Irritating organic vapours.                                       |
| Hazardous polymerization:         | Hazardous polymerization may occur in the presence of excess peroxides and metals contamination.              |

# Section 11. Toxicological information

| Health Effects:  |  |
|------------------|--|
| Ingestion:       | May be harmful if swallowed.   |
|                  | Ingestion can cause gastrointestinal irritation, nausea, vomiting and diarrhea.                  |
| Skin:            | Irritating to skin.  |
|                  | Symptoms may include redness, edema, drying, defatting and cracking of the skin.                 |
| Eyes:            | Causes serious eye damage.   |
|                  | Contact with the eyes may cause moderate to severe eye injury. Eye contact may result in corneal |
|                  | injury. Symptoms may include discomfort or pain, excess blinking and tear production, with       |
|                  | marked redness and swelling of the conjunctiva.  |
| Inhalation:      | May cause respiratory tract irritation.  |
| Chronic effects: | Repeated excessive dermal exposure may cause marked skin irritation and may increase the         |
|                  | possibility of allergic reactions.   |

# Acute toxicity:

| Hazardous components<br>CAS-No.                               | Value<br>type  | Value   | Route of application       | Exposure<br>time | Species       | Method   |

# Section 12. Ecological information

# General ecological information:

Do not empty into drains / surface water / ground water., Biodegradable product of low ecotoxicity., Cured Loctite products are typical polymers and do not pose any immediate environmental hazards., Biological and Chemical Oxygen Demands (BOD and COD) are insignificant.

**Ecotoxicity:** 

Harmful to aquatic life with long lasting effects.

# Toxicity:

| Hazardous components<br>CAS-No.                               | Value<br>type | Value       | Acute<br>Toxicity<br>Study | Exposure<br>time | Species                         | Method   |

|                                 | Section 13. Disposal considerations  |
|---------------------------------|--|
| Waste disposal of product:      | Dispose of in accordance with local and national regulations.<br>Contribution of this product to waste is very insignificant in comparison to article in<br>which it is used   |
| Disposal for uncleaned package: | After use, tubes, cartons and bottles containing residual product should be disposed of a chemically contaminated waste in an authorised legal land fill site or incinerated. Disposal must be made according to official regulations. |

# Section 14. Transport information

#### Road and Rail Transport:

Dangerous Goods information:Not classified as Dangerous Goods according to the criteria of the<br/>Australian Code for the Transport of Dangerous Goods by Road and<br/>Rail (ADG Code).

Marine transport IMDG: Not dangerous goods

**Air transport IATA:** Not dangerous goods
