

## Versatile card reader for SD and microSD cards

Featuring double card slots for both your SD and microSD memory cards, the RDF5 handles most of your daily needs for transfering data between your cameras, phones, and PCs.

Note: The reader does not support simultaneous insertion of SD and microSD cards.

## **Standard USB Type-A connector**

Transcend's RDF5 card reader comes with a standard USB Type-A connector. Simply plug it in directly to the USB port of the computer, you can immediately enjoy high-speed transfer!

## Higher speeds, higher efficiency

Equipped with the USB 3.1 Gen 1 interface, the RDF5 card reader shows amazing transfer speeds, much faster than what you'd get with USB 2.0! Not only will the RDF5 handle your high-resolution images and videos with ease, but it also has an LED indicator to show card insertion and data transfer activity.

# Card Readers RDF5

## **Features**

- USB 3.1 Gen 1 interface
- Supports SD, microSD cards, and a USB connector
- Plug directly into the USB port on any desktop or notebook computers
- Convenient LED indicator
- Designed for high-resolution video, raw image transfers, and post-production processing

#### RecoveRx

RecoveRx is a data recovery software for memory cards, USB flash drives, external hard drives and SSDs.

## **Specifications**

## Appearance

Dimensions	56 mm x 24 mm x 8.9 mm (2.20" x 0.94" x 0.35")
Weight	18 g (0.63 oz)
Color	Black / White / Pink

#### Interface
